CONNECTION INFORSA

CONNECTION is the title of a work (triptych) made by artist Baukje Spaltro. Commissioned by Inforsa (psychiatric clinics in Amsterdam), artist Baukje Spaltro (Milan, 1967) worked together with clients half year on this large triptych with the theme 'Connection'.

Mentrum / Inforsa psychiatric clinics are two clinics for high intensive treatment one in the field of psychiatry and the other in the field of addiction.

The starting point for the work was the connection between the inner and outer space of these two clinics and the different spheres of the individual clients. This panoramic work is 160 x 760 cm.

The design came about during various workshops of the artist for eleven clients Mentrum / Inforsa. Here they created their own inner and outer world on paper and on linen.

VERBINDING opened on 10 October 2012, during the Dutch National Day of psychiatry.
